this book investigates the origins of the north korean garrison state by examining the development of the korean people s army and the legacies of the korean war despite its significance there are very few books on the korean people s army with north korean primary sources being difficult to access this book however draws on north korean documents and north korean veterans testimonies and demonstrates how the korean people s army and the korean war shaped north korea into a closed militarized and xenophobic garrison state and made north korea seek juche self reliance ideology and weapons of mass destruction this book maintains that the youth and lower classes in north korea considered the korean people s army as a positive opportunity for upward social mobility as a result the north korean regime secured its legitimacy by establishing a new class of social elites wherein they offered career advancements for persons who had little standing and few opportunities under the preceding japanese dominated regime these new elites from poor working and peasant families became the core supporters of the north korean regime today in addition this book argues that in the aftermath of the korean war a culture of victimization was established among north koreans which allowed kim il sung to use this culture of fear to build and maintain the garrison state thus this work illustrates how the north korean regime has garnered popular support for the continuation of a militarized state despite the great hardships the people are suffering this book will be of much interest to students of north korea the korean war asian politics cold war studies military and strategic studies and international history

the remarkable economic growth achieved by japan and korea makes analysis of the style of economic management practiced in each of special interest some similarities emerge specifically a strong partnership between government and the private sector an export oriented development strategy and emphasis on education and the development of skills the policies differed in that

government became the more senior partner and the apparatus of planning and policy making was more centralized and streamlined in Korea and Korea relied much more on foreign trade although the experience of these two countries in general confirms that price markets and outward orientation can play a significant part in economic development. Their styles of economic management do not fall neatly into the conventional pigeonholes in economics. No definitive conclusions as to transferability of the Japanese and Korean techniques emerge but some important inferences can be drawn from the experiences of Japan and Korea regarding the power of prices and role of competition both internal and external.
